WELCOME TO WEERAN ANGUS

Dear Cattle Breeders,

Welcome to our 27th year of selling Angus bulls at auction. Weaner sales are on the go as we go to print and it's fantastic to see everyone rewarded for their hard work. \$1200 - \$1500 for weaners is a great reward for years of dedication! It was a pleasure to see well presented pens of weaners with good weights and excellent prices received! How much difference a

year makes! A great season, dams full and creeks flowing! A cool finish to the season, is ideal for grass and livestock production.

A highlight of our draft of bulls this year is the exceptional calving ease and low birth weight which consistently appears through the catalogue. It is a fundamental advantage to instil to anyone's program. With the expected increase in heifer mating's, Weeran's genetics will be a good choice.

The US genetics we are using, being Musgrave Big Sky and Sydgen Black Pearl, are working really well. Tim and Dick's recent trip to the USA confirmed that the use of these genetics has been a good move for our program. We are continually working to develop our program for greater levels of relevance to the industry and production levels. Our Team at Weeran are very excited with our improvement and development.

We look forward to welcoming you to Weeran. Please give us a call if we can help you in the meantime.

Kind regards
Alec & Jo Moore

DELIVERY

Weeran will organise delivery of your purchases free of charge up to 150kms. Over and above this by negotiation.

HEALTH STATUS FOR ALL SALE BULLS

1. Semen Quality Tested
2. Drenched and 7 in 1 Vaccination

SEMEN RIGHTS

Weeran retains semen rights on all sale bulls for use in the Weeran Herd. If required, Weeran will organise and collect semen at our expense and at your convenience.

3. Two Pestivirus Vaccinations
4. Two Vibrio Vaccinations

GENETIC CONDITIONS

All sale bulls have been tested for known genetic conditions, and results are printed in the catalogue. For further information, please refer to Angus Australia website...
www.angusaustralia.com.au

IBMS GTS GRADING

IBMS GENETIC TYPE SUMMARY (GTS)

All Weeran bulls have been assessed on the GTS Type/Structure system. All the bulls in the catalogue are considered acceptable for soundness and muscling. The GTS system has been broken up into two distinctive trait groups.

DESCRIPTIVE TRAITS

Stature - Evaluation of bulls for frame size. A maturity pattern 25 is an average frame bull. This may be influenced by age of dam, particularly first calf heifers.

Capacity - Bull evaluation combines depth of fore rib along with spring of rib and width of chest floor, as well as depth of flank. Scores greater than 25 indicate larger capacity.

Body Length - Evaluation of body length from withers to pins. Scores greater than 25 indicate longer body length. **Muscle** - Scores higher than 25 indicate above average muscle.

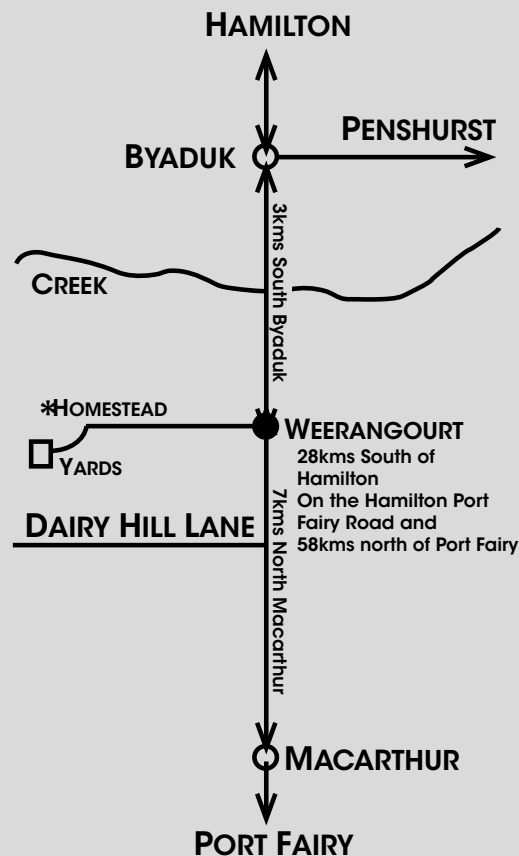

Doing Ability - Ability to lay fat relative to their peers under common management system.

STRUCTURAL SOUNDNESS TRAITS

The system is aimed at being as simple as possible. All structural traits (front and rear feet, rear leg angle and pastern scores) are presented in the same format. A score of 25 is the optimum. Scores of 23/24 and 26/27 represent a slight variation from ideal.

These animals would be acceptable in most breeding programs. Scores of 21/22 and 28/29 have a larger variation from ideal, but would be acceptable in most commercial herds, but seedstock producers should assess these animals carefully. Scores of 20 or 30 are low scoring and should be carefully evaluated prior to purchasing.

Bulls scoring outside these scores should be considered culls and not catalogued for sale. Structure scoring is only given to give potential purchasers a guide, it is not a guarantee of the lifetime structure soundness of an animal. Many thanks to Dick Whale for assessing all sale bulls. WEERAN GUARANTEES!

LAWSONS HENRY VIII Y5

YTHANBRAE DIRECTION T270

Edmund was selected as an outlier for positive fat & IMF. He also brings calving ease and if used with sound, high horsepower cows, will work well.
