# WELCOME TO WEERAN ANGUS

Dear Cattle Breeders,

Welcome to our 2020 Autumn Bull Sale, being our 30th Autumn sale and our 43rd on property auction at Weerangourt.

It's an exciting time to be in the Seedstock Industry and breeding Angus cattle with the evolution of genomics. We are taking our selection decisions to the next level using the latest advancements in Angus Genotyping technology.

We have comprehensively tested all sale bulls with a 50K test. This provides sire and/or full parent verification, with approximately 50,000 gene markers attributed to performance orientated growth and carcass factors. The results already are showing variation between embryo siblings. Genomic testing is one more tool for us to use to more accurately predict the future performance of our animals.

Unfortunately not all results are back as we go to print. We will have a very detailed summary sheet available at the field day and bull sale with updated figures for those that have not arrived yet.

We will be offering 35 Herdbook registered and 51 APR registered bulls at the sale. There are a large number of reference sires due to the large number of embryo's we have used in the autumn program.

Also featured in this sale is the final offering of Herdbook Embryo's purchased from Millah Murrah. It has been an exciting three year program which has allowed us to sample the Millah Murrah program and run them alongside our own performance cattle.

Our top grading sale bulls have already been used in the Weeran Program. This is testimony to the genetics we are producing.

We are thinking of the many farming families who have been affected by the fires recently and to the farming communities who are still being challenged by ongoing drought. Some rain has arrived up north and we hope there will be much more on it's way to give everybody relief.

The Weeran Team look forward to welcoming you to our 30th Autumn Bull Sale.

Kind regards

Alec & Jo Moore and the Weeran Team!

---

## DELIVERY

Weeran will organise delivery of your purchases free of charge up to 150kms. Over and above this by negotiation.

---

**ALL SALE BULLS COMPREHENSIVELY GENOMICALLY TESTED**

This catalogue is endorsed and recognised by Angus Australia with 100% of bulls for sale being sire verified.

# HEALTH STATUS FOR ALL SALE BULLS

1. Semen Quality Tested

2. Drenched and 7 in 1 Vaccination

3. Two Pestigard Vaccinations and Two Vibrovax Vaccinations to all Sale Bulls.

## SEMEN RIGHTS

Weeran retains semen rights on all sale bulls for use in Weeran herd. If required, Weeran will organise and collect semen at our expense and at your convenience.

## GENETIC CONDITIONS

All sale bulls have been tested for known genetic conditions, and results are printed in the catalogue. For further information, please refer to Angus Australia website...

[www.angusaustralia.com.au](http://www.angusaustralia.com.au)

## COMPREHENSIVE GUARANTEE & SUPPLEMENTARY CATALOGUE INFORMATION

IF YOU EXPERIENCE ANY PROBLEMS, PLEASE MAKE SURE WE ARE THE FIRST CONTACT TO ENSURE WE CAN HELP YOU!

Visit [www.weeranangus.com.au](http://www.weeranangus.com.au) for full details

## IBMS GTS GRADING

### IBMS GENETIC TYPE SUMMARY (GTS)

All Weeran bulls have been assessed on the GTS Type/Structure system. All the bulls in the catalogue are considered acceptable for soundness and muscling. The GTS system has been broken up into two distinctive trait groups.

### DESCRIPTIVE TRAITS

**Stature** - Evaluation of bulls for frame size. A maturity pattern 25 is an average frame bull. This may be influenced by age of dam, particularly first calf heifers.

**Capacity** - Bull evaluation combines depth of fore rib along with spring of rib and width of chest floor, as well as depth of flank. Scores greater than 25 indicate larger capacity.

**Body Length** - Evaluation of body length from withers to pins. Scores greater than 25 indicate longer body length. Muscle - Scores higher than 25 indicate above average muscle.

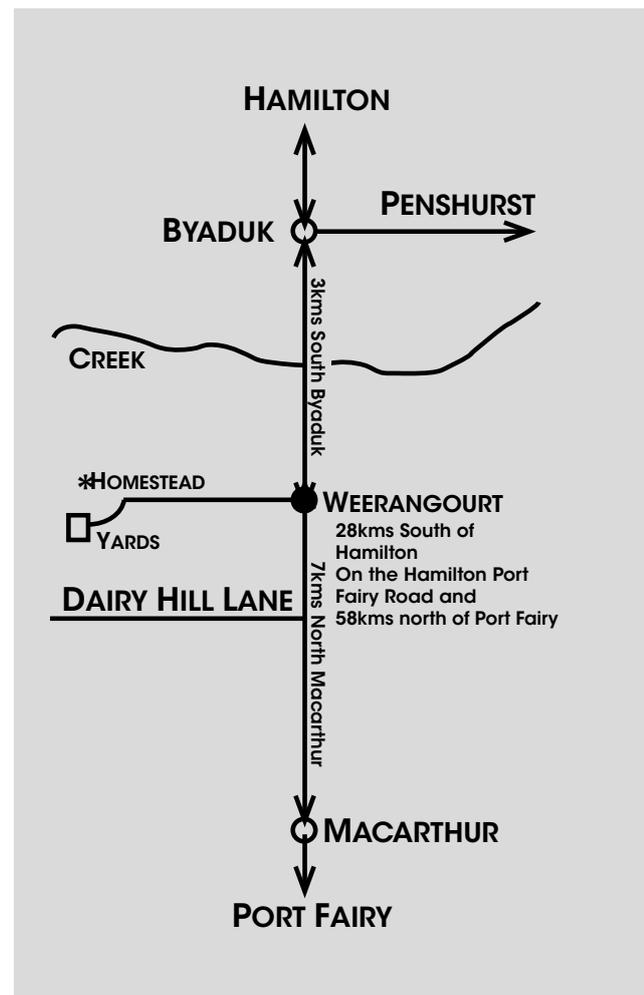

**Doing Ability** - Ability to lay fat relative to their peers under common management system.

### STRUCTURAL SOUNDNESS TRAITS

The system is aimed at being as simple as possible. All structural traits (front and rear feet, rear leg angle and pastern scores) are presented in the same format. A score of 25 is the optimum. Scores of 23/24 and 26/27 represent a slight variation from ideal.

These animals would be acceptable in most breeding programs. Scores of 21/22 and 28/29 have a larger variation from ideal, but would be acceptable in most commercial herds, but seedstock producers should assess these animals carefully. Scores of 20 or 30 are low scoring and should be carefully evaluated prior to purchasing.

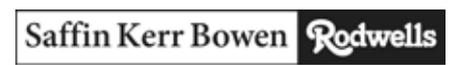

Bulls scoring outside these scores should be considered culls and not catalogued for sale. Structure scoring is only given to give potential purchasers a guide, it is not a guarantee of the lifetime structure soundness of an animal. Many thanks to Dick Whale for assessing all sale bulls. WEERAN GUARANTEES!

*Wattletop Franklin G188 . . . .the Matron Maker . . . the best bull to come out of the Wattletop Angus Stud. The most complete bull from Cohort 4 in the Angus Sire Benchmarking Trial, being a trait leader for calving ease, growth, fertility and carcass traits. His mother E295 topped the Stage 1 Wattletop Dispersal sale for \$38,000 to Sprys Angus. His daughter, J464 equal topped the sale for \$38,000 to Bannaby Angus. His 10 year old Grand Dam C136 sold for \$16,000 to KO and Bannaby Angus, and . . . had a total of 16 daughters averaging \$14,187, truly highlighting the matron maker in this bull. A terrific result in a strong sale where all 259 females sold to average \$8,494. He sires moderate, but heavy framed docile cattle with super calving ease. He has 1123 progeny across 148 herds.*

**TE MANIA LOWAN Z618**

TE MANIA LOWAN V19

No of Sons in Sale **7**

An Angus Australia Sire Benchmark Trial graduate from Cohort 4, with well rounded performance with moderate calving ease, growth and great carcass qualities. A pedigree stacked with some of the breeds most influential sires in Te Mania Africa, New Design 036, Kennys Creek Sandy S15 and Scotch Cap, coupled with proven super sound structure was a huge draw card when choosing Gravity G13. Used heavily here at Weeran over heifers and larger birth weight cows to help right any calving ease issues. He has great capacity, softness and thickness, and is breeding the right temperament for ease of handling. 367 progeny across 34 herds

Barwidgee Jay W was purchased in 2011. He is right up in the stirrups for growth and excellent body type. We have a lot of faith in this sire line to perform in the paddock which is what counts in the end. All his data for growth and carcass weight is heading in the right direction. His progeny are very impressive and have been well received in the marketplace. Still at the ripe old age of 11 year old he stands in the paddock for stud duties. 275 progeny analysed in 13 herds.

A cookie cutter stamped Hallmark son with scope and style. They never seem to disappoint with single figure growth, carcass weight and positive fat in this very easy doing, soft fleshing package. First of the last run of pure Millah Murrah bred embryos purchased. Backed by two of the more prominent Millah Murrah family lines in the Flower and Brenda families, coupled with proven cow makers BT right time 24J and Te Mania Emperor. **50K Confirmed**

The first of four homebred embryos out of Weeran Pride H259. A powerful bull with calving ease in the top 20% and milk, scrotal size, days to calving, fats and IMF all right up the top end with single figure percentages. The Pride family have really shone through the herd with H259's dam and grand dam, Pride D506 and Pride A152, both being donors here. Weeran Pride A152 was purchased as an embryo from the US out of the Hyline program in Montana. Two brothers were used here for stud duties and sell at lots 12 and 15 and full flush brother also used here sells at lot 13. **50K Confirmed**

The power bull of the sale. The sheer volume and style this fella has is sure to catch your eye. A JMB Traction embryo calf out of our larger framed Te Mania Africa donor cow, Weeran Lady G203. Traction was used to pull frame slightly and add in thickness and this sure has paid dividends. Top 1% for all Growth traits, as well as Scrotal Size, Carcass Weight and Retail Beef yield and single figure Grass and Grain Indexing. A full flush brother that was used for stud duties here and sells at lot 11 and another full flush brother at lot 28. **50K Confirmed**

A structural standout 7 grading calf with excellent Indexing, Growth, Scrotal and Days to calving all in top 10%. The Hallmark calves always impress for power and this is no exception. Backed by the heavily used, Millah Murrah Brenda F6 who has 64 registered calves across 13 herds. She has in excess of \$285,000 in earnings, including more than \$75,000 worth of embryo sales and sold for \$30,000 at the 2017 Millah Murrah Female sale. Maternal brother sells at lot 31. **50K Confirmed**

Moderate Birth to Growth spread with an excellent, and the highest EMA and Retail Beef Yield in the sale at 13.1 and 3.7, both in the top 1% of the breed. Full flush brother sells at lot 5 (Weeran Powerbull P70). As we start to get more of a handle on Genomic testing, we start to see more variance between full flush siblings and this is definitely a driving force behind our enthusiasm to Genomically test all our animals. Being able to get a more accurate look on our cattles performance, at a younger age allows us to make better informed management decisions regarding our herd. Pickup is top grading at 7! **50K Confirmed**

P135 is a son of the legendary matriach, Millah Murrah Flower G41, who currently has 3 sons featuring in semen catalogs. Firstly, Kingdom K35 which sold for a record price of \$150,000, Marton Brando M304 who sold for \$40,000 and Navigator N312 who sold for \$18,000. She alone sold for \$28,000 at Millah Murrahs 2017 reduction sale. Packman has been used in the Weeran herd backing up a.i. cows and has the advantage of mating experience. In the top 10% for all growth ebv's and in the top 1% for net feed efficiency. LD Capitalist was an absolute structure and phenotype stand out when ABS were touring the USA. A deep, wide based, strong topped, heavily muscled bull coupled with the power of G41 is a match made in heaven. **50K Confirmed**

Weeran took the opportunity to purchase a number of top females at the Witherswood Dispersal sale. This has given us an opportunity to continue to fast track and develop our Stud Herdbook program with very exciting progeny hitting the ground! The first of our Witherswood progeny by Millah Murrah Klooney was purchased as a six week old calf at the dispersal sale! The primary selection criteria for purchasing cows was the quality of the calf at foot, teamed with type, structural soundness and performance profile. MM Klooney has an outstanding performance profile, being top 10% for both calving ease traits. He is a short gestation bull with good growth profile, with good milk and top 3% days to calving. An EMA and IMF which are highly accurate and excellent carcass improver. Klooney has 1498 progeny analysed in breedplan with 233 genomically tested and used in 200 herds. He is a highly accurate sire, and this young gun at 18 months is very impressive. **50K Pending**

Weeran Hooper H20 and Weeran Joel J13 have been the two standout performers to come out of the Weeran herd in the last few years. Joel J13 performed very well in the benchmarking trial (Cohort 6) whilst recent sales results have highlighted the enthusiasm in the Hooper calves. Hooper himself is a dream to work with, all making the job that much easier. Out of a first calf heifer, Weeran Phil P107 exhibits good calving ease to growth spread with Milk and Scrotal in the top 16%. **50K Pending**

Buyer ..... Price \$ .....

A combination of high profile genetics, being TeMania Africa, Rennylea Edmund and Weeran Pride E68. E68 has an outcross background being Younkim Triumph 4966 and Hyline Pride 265. Diversity in the genetic pool as long as it works is of a great advantage. P171's EBV profile is outstanding. Single figure percentile indexing for three out of the four traits recorded. An outstanding young bull. **50K Pending**

Barwidgee Jay W has been a very solid performer over many years at Weeran! This son of his has excellent calving ease and low birthweight which ideal for heifer joinings, with an excellent growth curve. His mature cow weight, being lower than his 400 day cow weight, is ideal for female efficiency. A fat positive bull means his calves will be soft, easy doing types which will meet market specifications early. **50K Pending**

A Franklin and Black Pearl combination guarantees suitability for heifer matings, being both outstanding calving ease sires. Scrotal and Feed Efficiency are a highlight, as is carcass weight ebv's. Top 5% for 200, 400 and 600 day growth plus top 5% feed efficiency and top 7% carcass weight, makes this a valued sire. **50K Pending**
