# WELCOME TO WEERAN ANGUS

Dear Cattle Breeders,

Congratulations to everybody on an extraordinary run of weaner sales right around the country. The buzz in the saleyards was fantastic and to see the faces of clients being so well rewarded for years of hard work and their investment in top genetics was a great thrill to be part of. Something we feel very lucky to have experienced and shared with our clients. The yardings had rows and rows of beautifully presented cattle, with great weights and excellent skins. A very impressive line up that caused a real buzz with the buyers.

We are excited with the genetics we are supplying the marketplace. We are producing bulls with fantastic calving ease, excellent growth and great carcass merit that will also add muscle and kgs. The weaners offered in the district by our clients were great testament to this.

The use of genomics means you can trust the information being provided. We are making use of technology, but also investing in the latest tools available to ensure our clients get the very best information. We have lifted our performance and are right up there with the leading herds in the industry. It is exciting times at Weeran Angus!

81 Powerful performance Bulls are catalogued for this sale with 22 two year old Autumn drop bulls and 59 eighteen month old Spring drop bulls, with 31 being Herdbook registered and 50 being APR.

Lawsons Momentous is a standout in our program and is an EMA and IMF game changer. He has lifted our carcass considerably in our cattle and is producing high yielding and high marbling carcasses in a really good Angus type. He is our lead sire with numbers of bulls offered, followed by homebred sires Weeran Hooper and Weeran Joel. Another new sire in the program impressing us is Baldrige Compass, who has calving ease and carcass, with positive fat. He puts a lot of shape into his progeny. We flushed Weeran Prue M65, a half sister to the record selling \$190,000 Millah Murrah Prue, and the progeny from this flush by Ascot Hallmark has been a very good match for power with plenty of frame and good structure. We have four lots in this sale from this flush and they are Wow!!

Our bull sale will be held on property and online with Elite Livestock Auctions. This worked very well for the Spring 2020 sale, and the start of a new era of selling at Weeran. We look forward to continuing the online presence with Elite.

Thank you to the many clients and friends who support the Weeran program. It is very much appreciated.

We look forward to welcoming you to our Bull Inspection Day and our Bull Sale.

Kind regards  
Alec & Jo Moore

## HEIFER BULL SELECTION CRITERIA

Heifer bull recommendations are the combination of Calving Ease EBV's, Birthweight EBV, pedigree history and actual birthweight, which gives me confidence to recommend them for heifer matings!

It is not an exact science, but a recommendation!

## DELIVERY

Weeran will organise delivery of your purchases free of charge up to 150kms. Over and above this by negotiation.

**ALL SALE BULLS COMPREHENSIVELY GENOMICALLY TESTED**

# HEALTH STATUS FOR ALL SALE BULLS

1. Semen Quality Tested

2. Drenched and 7 in 1 Vaccination

3. One Pestigard Vaccination and One Vibrovax Vaccination to all Sale Bulls

## SEMEN RIGHTS

Weeran retains semen rights on all sale bulls for use in Weeran herd. If required, Weeran will organise and collect semen at our expense and at your convenience.

## GENETIC CONDITIONS

All sale bulls have been tested for known genetic conditions, and results are printed in the catalogue. For further information, please refer to Angus Australia website...

[www.angusaustralia.com.au](http://www.angusaustralia.com.au)

## COMPREHENSIVE GUARANTEE & SUPPLEMENTARY CATALOGUE INFORMATION

IF YOU EXPERIENCE ANY PROBLEMS, PLEASE MAKE SURE WE ARE THE FIRST CONTACT TO ENSURE WE CAN HELP YOU!

Visit [www.weeranangus.com.au](http://www.weeranangus.com.au) for full details

## IBMS GTS GRADING

### IBMS GENETIC TYPE SUMMARY (GTS)

All Weeran bulls have been assessed on the GTS Type/Structure system. All the bulls in the catalogue are considered acceptable for soundness and muscling. The GTS system has been broken up into two distinctive trait groups.

### DESCRIPTIVE TRAITS

**Stature** - Evaluation of bulls for frame size. A maturity pattern 25 is an average frame bull. This may be influenced by age of dam, particularly first calf heifers.

**Capacity** - Bull evaluation combines depth of fore rib along with spring of rib and width of chest floor, as well as depth of flank. Scores greater than 25 indicate larger capacity.

**Body Length** - Evaluation of body length from withers to pins. Scores greater than 25 indicate longer body length. Muscle - Scores higher than 25 indicate above average muscle.

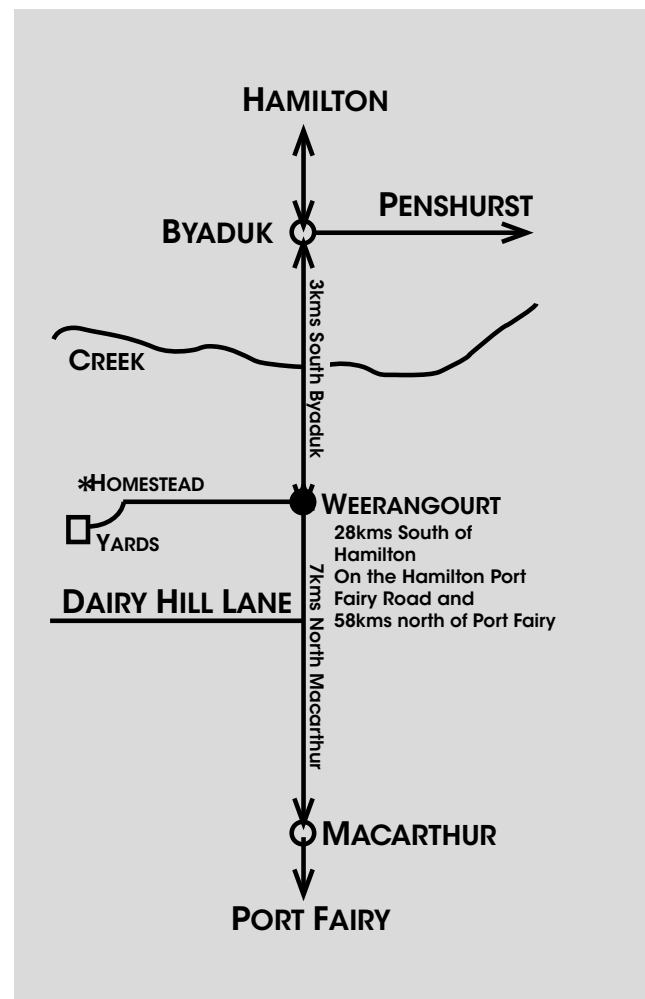

**Doing Ability** - Ability to lay fat relative to their peers under common management system.

### STRUCTURAL SOUNDNESS TRAITS

The system is aimed at being as simple as possible. All structural traits (front and rear feet, rear leg angle and pastern scores) are presented in the same format. A score of 5 is optimum. Scores of 4 or 6 represent a slight variation from ideal.

These animals would be acceptable in most breeding programs. Scores of 3 and 7 have a larger variation from ideal, but would be acceptable in most commercial herds, but seedstock producers should assess these animals carefully. Scores of 2 or 8 are low scoring and should be carefully evaluated prior to purchasing.

Bulls scoring outside these scores should be considered culls and not catalogued for sale. Structure scoring is only given to give potential purchasers a guide, it is not a guarantee of the lifetime structure soundness of an animal. Many thanks to Dick Whale for assessing all sale bulls. WEERAN GUARANTEES!

A high selling bull from Lawson Angus in 2018. Very good structure with outstanding carcass profile, which is the main reason Weeran Angus have invested in Momentous, as we believe EMA and IMF will set your cattle apart from the rest in the eating quality and feedlot profitability. He has 2101 Progeny in 45 herds.

Hooper is a fantastic son of TeMania Africa! Unprecedented birth to final, extraordinary scrotal also in the top 1%. This bull is as thick as a brick, and sound as a bell and is the best Africa son I have ever seen. His temperament is perfect & he has bred so well at Weeran along with many herds who have purchased his genetics. Twelve sons sold for an average of \$6,917 at the 2019 Spring sale with three equal topping the sale. He has 391 Progeny analysed in 2 herds on the ground.

Joel has been a star performer at Weeran! He is the full package for performance which was validated with his outstanding final results in the Angus Society benchmarking trial, Cohort 6. With a group of 41 sires registered, Joel was in the leading pack of all traits recorded. No 1 in the cohort for Carcass Weight, 4th for 600 day weight and ABI, 6th for 200 day weight and 8th for EMA. A very exciting home bred sire. The combination of calving ease, low birth, large scrotal and carcass quality has made him a very easy bull to use. Joel was the leading reference sire in the Spring 2020 bull sale with five sons selling to a top of \$14,000 and an average of \$10,700. We have a lot of faith in his females in our herd. He has 414 progeny analysed across 10 herds.

What a way to start the sale. The Hallmark sons never seem to disappoint. A Herdbook ET calf with 3 more excellent flush brothers at lots 3, 4 and 43. Out of a donor heifer Weeran Prue M65. She herself is a powerful, larger framed Reality daughter, and a maternal sister to the record priced, \$190,000 Millah Murrah Prue M4. The maternal strength in this pedigree is first rate. Hallmark x Reality x Carbine x Woody W100 x Hingaia 469, an exotic outcross backed by proven female lines over many years. Excellent growth across the board in the top 20% and carcass weight and scrotal size in the top 10% of the breed.

Another very impressive Hallmark descendant. Purchased in utero from the Anvil Angus cow dispersal in 2018. His dam, Anvil Wilcoola L032 was a real eye catcher both on paper and in the paddock. A clean fronted, long bodied excellent calving ease and growth NMMD78 Equator daughter with terrific carcass weight and retail beef yield. Combined with Bellaspur Hallmark M83 has produced this terrific, very high quality, easy doing Herdbook calf with top 11% for 600 day growth and Scrotal size, and top 6% Carcass weight. We think very highly of this excellent 7 grading young sire who we used as a yearling over our stud heifers and think he could be placed at any stud or commercial operation alike.

The 2nd of the 4 flush brothers by Hallmark x Weeran Prue M65. Slightly smaller in frame than his two autumn brothers but packs the same amount of power and volume. A 7 grading son with top 13% or better for all growth traits, top 2% for Scrotal size with plenty of carcass weight and positive rib fat puts this fella in the top 25% across the board for ABI, Heavy Grain and Heavy Grass Indexes. Herdbook registered.

The 3rd of the 4 flush brothers by Hallmark x Weeran Prue M65. A super long bodied, calving ease, positive fat sire who we have used in our Spring Joining backing up our stud cows. Excellent muscling and a perfect sheath grading 5. Expect the calves early with a short gestation length in the top 7%, good final growth in the top 15% and fats in the top 3% and 8% for Rib and Rump. An excellent 6 grading son. Herdbook registered.

WOW, a bull that has excited us from day dot. Excellent stature and capacity in this long bodied Momentous son. Structurally very sound, super easy doing with a wonderful temperament. The first of the Momentous sons offered here today. Lawsons Momentous M518 is really making his mark on the breed as being the go to sire for increasing carcass quality. Top 1% for EMA at 14.2 and IMF at 4.6 has made him very popular Australia wide. Joined to a super powerful Ayrvale G18 daughter, Wattletop Usual N51 purchased from the Wattletop Angus female dispersal in 2018. She has an excellent profile with great capacity whilst still being super mobile and showing plenty of front extension and clean shoulders. This mating has really ticked the boxes both phenotypically, and on paper. You will be hard pressed to find a better bull across Australia this selling season for carcass combination of 15.2 EMA being top 1% and 3.9 for IMF at top 4%. Add in his explosive growth at top 10% for 200 and 400 day his progeny will be a feedlotter's delight. Indexes are all in the top 15% or better and we believe this young 7 grading sire has a real stud sire potential. Herdbook registered.

An excellent bodied Momentous son here at lot 6. Like many others, we have used Momentous to add carcass quality to our larger, thicker bodied females that carry plenty of weight and shape. Going back to one of our more powerful donor cows, Weeran Pride E68, who has been very influential in establishing our HBR herd through flushing, and using sons of hers. Excellent growth here with top 5% or better for all 200, 400 and 600 day growth and top 20% for carcass weight, EMA and IMF. Structurally very good with a nice long body in this 7 grading son. Herdbook registered.

1 of 3 Weeran Moe M96 calves for sale today. Weeran Moe was our record top price bull of \$30,000 at our 2018 autumn bull sale. A big framed, powerful, yet amply soft fleshing Hallmark son. He sires very stylish calves with explosive growth on paper & in the paddock with this guy no exception to the Hallmark mould. Exceptional growth in the top 12% or better for both 200 and 400 day and a final growth in the top 4% of the breed. All this in a feed efficient package in the top 20% producing a heavy carcass weight in the top 11%.

A very Millah Murrah dominated pedigree in this calf. Both the sire Weeran Mars M106 and dam Weeran Prue N101 were purchased as embryos from the Millah Murrah program. Weeran Mars M106 was the 2nd highest priced bull of our 2018 autumn bull sale at \$18,000 to Clunie Range Angus in far northern NSW. Great growth for 400 and 600 day at 14% and 17% respectively, scrotal in the top 11%, EMA at 19% but the highlight being achieving all this in a feed efficient manner with his NFI in the top 1% of the breed. Herdbook registered.

Another Momentous out of a powerful Hallmark heifer, Weeran Abigail N72. Excellent scrotal in the top 4%, fats at 11 and 12% for rib and rump and IMF 3.2 puts him in the top 13% of the breed. An ideal heifer bull with good structure. We used this young bull as a yearling to mate our own Autumn drop heifers as we are keen to make use of Momentous's outstanding carcass performance. Herdbook registered.

Full flush brother to the very impressive lot 5 with the same paperwork to match it, and some added growth. We have used him over our older cows in our spring joining program, so whilst not quite showing the impressive weight and power of his brother, we still think just as highly of him. Excellent structure scores and very easy doing. Explosive growth from woe to go with 200 day top 2%, 400 and 600 day both top 6%. Scrotal size top 2%, carcass weight top 6%, EMA top 4% and IMF at 4 puts him in the top 3% of the breed, all the key drivers for profitability, with indexes all being in the top 12% or better. Herdbook registered.

Momentous over a Barwidgee Jay W daughter. A very even spread of performance across the board. Jay W needs no introduction with countless sons topping sales over the last 5 or so years now. At the ripe old age of 11, Jay W still proved he's got it when serving testing our back up bulls for our spring joining, showing the younger fellas how its done, so we couldn't help but give him another go again this year. If longevity gets added into EBVs expect Jay W to be right at the forefront.

A Herdbook ET calf of Blaster x Lucy J6. Bruns Blaster, an outcross sire combined with one of the very best calving ease cows in the country. Her progeny have excelled in previous sales with her daughters sure to reach our donor pen. We have flushed Weeran J6 a number of times & have more embryos to be implanted. This mating has combined well to produce a very easy doing, soft fleshing, moderate framed calf. His full flush brother sold for \$8000 in our spring sale last year and his sisters exhibit the same attributes and we are very excited to watch their influence on our herd.

The second of the spring drop Joel sons teamed with Hooper on the maternal side. What a combination of two outstanding sires in the Weeran program! Good calving ease daughters and calving ease direct ebv's in the top 8% and 14%, with indexing all in the top 25%. N447 is a three year old who has produced two ripping sons, with Q220 and a Beast Mode son this year. Grand Dam J327 is still producing very impressive progeny, with her four daughters still all retained in the Weeran herd.

Weeran Mercury M92 produces beautifully structured cattle, and Q327 is no exception as a 7 grader by Dick Whale. A Grandson of Millah Murrah Jupiter who has progeny in ten registered herds. Great fertility in the top 13% for the breed, along with very good 600 day weight in the top 20%. Very good net feed efficiency in the top 9%. On the dam side, VHWQ149 is a proven performer, with 7 progeny and still going! Longevity is in the genetic makeup.

Coolana, Wattletop and Witherswood all in the pedigree tree - what a combination! The Coolana Tearful female line is working well with specially selected joinings. Excellent growth curve with Q433, with 400 and 600 day weight top 12% and 6% for the breed combined with excellent fertility being in the top 1%. A very nice calving ease bull, with good structure.

A power packed Mercury son instilled with the calving ease and carcass of Weeran Joel and the Millah Murrah program! Indexes extremely well with a top 5% growth curve. Highly maternal with a top 8% milk ebv. Carcass Weight in the top 2% and when you sell over the hooks, it is carcass weight that pays. Good IMF with very good structure scoring grade 6 from Dick Whale and backed up by the structure ebv's with top 5% for angle and top 10% for claw.

Millah Murrah and Coolana genetics combining here to produce a long bodied good skinned HBR son of Mercury. Fertility is off the chart being in the top 1% for the breed for scrotal and top 5% for days to calving, which will ensure calves will reach puberty at an early age and therefore getting calves on the ground. Good 600 day weight with good indexing.

The only JayW son in the sale. JayW has topped many sales here at Weeran Angus, and his progeny are highly sort after. At 12 years of age, he doesn't get much opportunity, but when he does, he leaves his mark! A calving ease bull with a good growth curve and an excellent moderate Mature Cow Weight. Positive fat and being in the top 4% of the breed for feed efficiency. A highly efficient and extremely well regarded pedigree.

The first Herdbook son from our leading Donor Cow, Wattletop Barunah M157 purchased at the Wattletop dispersal by Dick and Tom. This has proven to be an outstanding mating with 16 calves on the ground coming up in the Weeran program. They all look fantastic! Q371 is definitely Stud Sire Potential! Very good structure, huge growth curve with top 2% EMA and excellent Retail Beef Yield and IMF. A good allrounder who ticks all the boxes for indexing being in the top 7, 10 12 and 14%! A true performance sire! An outstanding young bull.

A very nice HBR bull suitable for heifer calving, with really good calving ease ebv's combined with top 15% gestation and top 18% birthweight, all goes together to make him a genuine calving ease bull. Mature cow weight is in sync with 400 day weight, which is ideal for maintaining cow size in a profitable weight range. Positive fat carcass and good IMF. Very efficient growth curve rewarding 200 and 400 day weight. Excellent fertility with scrotal in the top 13% along with top 13% feed efficiency. Weeran K210 has produced some outstanding young bulls sold in previous sales.

Very sound calving ease bull by Weeran Hooper. Excellent Mature Cow Weight with good EMA and positive fat. Sire of the dam, Weeran Boomerang B59 was an outstanding sire used extensively in our herd for many years. Noted doing ability and feedlot marbling performance at Rangers Valley, and died of old age .....longevity is on his side.
